

Mobility in Finland

February 10-16, 2019

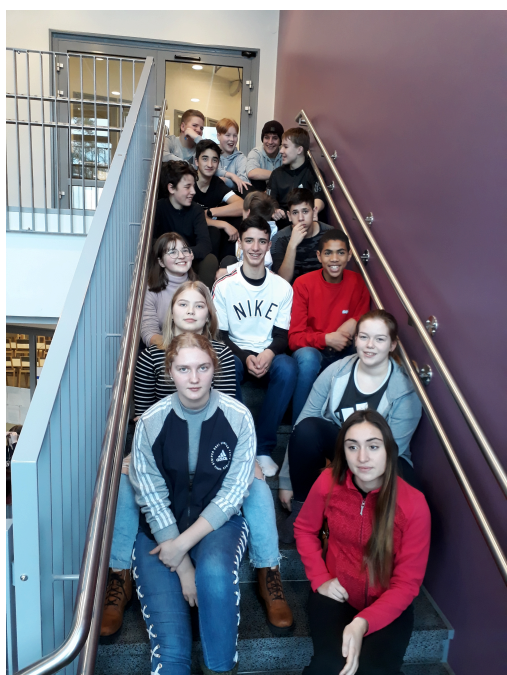

Luvia mobility newsletter

Hello!

We are the Finnish students who belong to the Erasmus+-project. We are here to tell you about our exchange week in Finland from the host perspective. Everyone of us will write things about the week. Starting from Sunday.

Sunday, February 10th

In the afternoon of Sunday the Spanish team arrived at 17.47 and the Portuguese team arrived at 21.37 to Pori's railway station. Finnish students and their parents were waiting for them. Then we drove to our houses and we spent the rest of the evening at home. The weather was quite bad: it was raining and it was slippery.

Monday, February 11th

On Monday we went to school, where we had a breakfast. After the breakfast we did some microbit activities and had some lessons. At 12 o'clock we ate and went to seashore to a place called Laitakari where there's also a small port. In Laitakari we went ice swimming and had fish soup for dinner. In the evening we played some snow war together. A fun day all in all.

Tuesday, February 12th

In the morning we did microbit activities. At 12 o'clock we left for Rauma. Before that, we ate in the school canteen. In Rauma we had a guided tour where the guide told us about the history of Rauma. The tour was in the old Rauma. We went to some museums and we looked at old Rauma's amazing buildings. In Rauma we ate in the Water Tower. The food was very good. We returned to Luvia at about six o'clock. Then our guests were with the host families for the evening.

Wednesday, February 13th

In the morning we coded on Microbit for about three hours. Then we attended a lesson for one hour. We should have been there for another hour, but we had to go to the French classroom to plan what to do in the last day. Then we went to the gym in school to spend time. We were there for a few hours playing football and other games and then we went to our homes.

Then we went to an ice hockey match. It was really fun to watch the match since it was a really tight match. The team Pori aces won in overtime.

Thursday, February 14th

In the morning we coded for about 2 - 3 hours. Then a bus came to pick us up and we went shopping in the Puuvilla shopping center. There we ate some snacks because we were going to eat pizza in our house later. After shopping we went back home in Luvia. There we were for about 2 hours before the

pizza night at Akusti's place. Then when we had eaten we talked about something and listened to music. We had a lot of fun. Then everyone went home.

Friday, February 15th

In the morning after we went to school, we baked a Finnish type dessert in the home economics classroom. After eating it we went to take some group pics because the Spanish team was leaving soon. After the pics the Spanish team went to the bus and drove to Pori where their train to Helsinki was waiting. The others were in the school in normal lessons with the Finnish pupils. In the evening we went to Niilo's place to play some poker and chill. It was the last evening of the mobility in Finland.

We had a very good time and we would want to see our exchange students again. We hope we'll meet you all again in the future. Have a good day! Until we see again! Bye!

Best wishes, the Finnish team
