

Germany mobility week December 11th - 16th

Erasmus+ team 2023-2024

Tuesday

Tuesday was the first day we were there and we had a welcome ceremony at the assembly hall. In the ceremony we were watching our presentation about our school. There was also some Portuguese students at the same time we were there. After that we had a tour around the school.

Later that day we made typical Bavarian food and it was quite good but hard to make. It was fun and we chatted a lot with the German students.

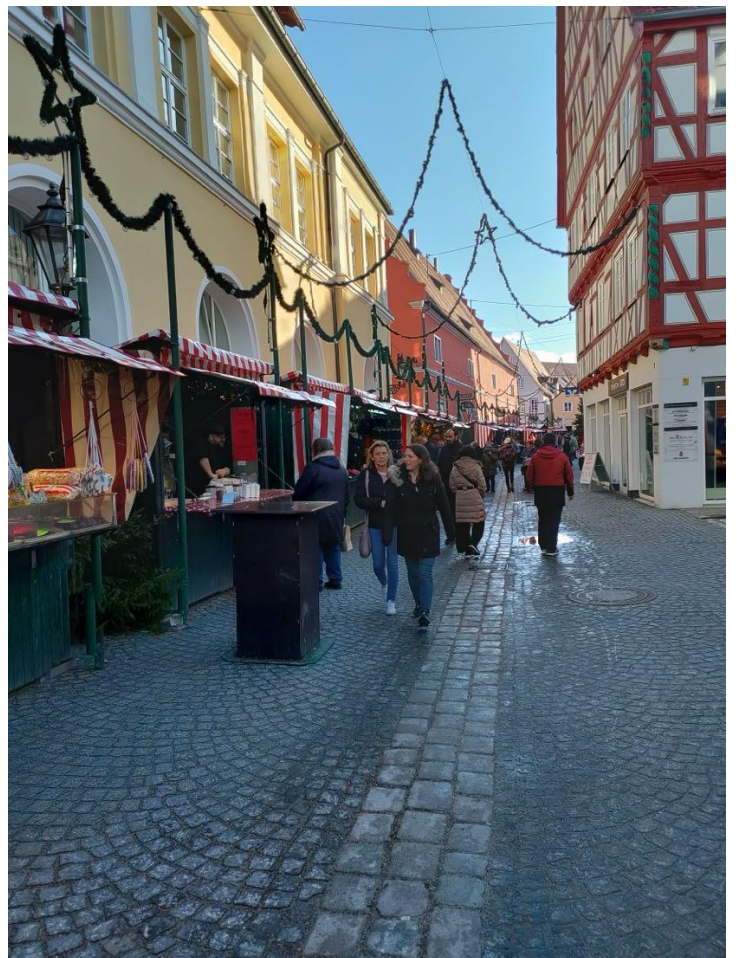

In the IT class we made our own phone holders out of wood. But after all the teachers made them because they were so hard to do.

Wednesday

On Wednesday we went on a trip to Augsburg. In the morning we had to wake up pretty early, because school started at 8 o'clock. We were with our students in their lessons for two hours. Then at ten o'clock we had a meeting with all the other students and teachers and walked all together to the train station. At 11am we went to Town Hall and Goldener Saal. Took some pictures and then we left. In Augsburg we had this photo challenge which was super fun at the same time our students gave us a tour of the city. We went to a shop to get something to eat or ate the snacks we got from our host families. Then we had a guided tour in the oldest social apartments of the world ("Fuggerei"). Then we went to Christmas market. After that we went to bowling and then back to Meitingen in train.

Thursday

At 8.15 we met at the school's assembly hall. Then at 8.45 we left for the trip to Nördlingen. We had a guided tour in the old town. There was a big wall that went around the city. After that we visited the famous Daniel Tower. Then we went to a restaurant for lunch and visited the Christmas market. About 14.30 we left back to Meitingen. We left from the school and went back to our host family's houses.

Friday

We had school and we did a smart online behavior workshop. We answered questions about smart online behavior in groups. After that we had a little snack and a drink. Earlier on the week we had done a week challenge where we had to learn more about bavarian culture and take video clips. We got all the video clips together and made one longer video about bavarian culture.

In the afternoon we went back to our host families and ate lunch. After that we had some freetime. In the evening we had a farewell party. We went to a restaurant and we ate some german food. We got our certificates of the trip and talked and chilled with our new friends. After that we went back to our host families homes and went to sleep.

Saturday

The day we had to leave Germany. We had to woke up really early in the morning. I changed my clothes after that, I packed rest of my things and I went downstairs and ate breakfast. And talked with my host family, they were really sad that I was leaving I was also really sad.
