

Finland

Forssan yhteislyseo

Working Conditions

- Our students have been attending classes in school most of the time since the start of the school year in August.
- We had a couple of week of distance learning just before Christmas.
- In school we pay attention to safety precautions (masks, washing hands, safety distances)

Activities carried out

- 11 students applied to the project
- They are all first year students (16-17 years)
- We have had five meetings:
 - Information about the project and getting to know one another
 - Joining eTwinning and getting to know the platform
 - We started doing the videos
 - We sent the Christmas presents (unfortunately it was not possible to send a packet to French Polynesia due to covid-19 at the moment)
 - We opened the presents that had arrived

Activities in the coming weeks

- 5.2.21 next meeting with students to watch the videos they have made
- The following activity will concern climate history and it will be done according to the instructions the partners decide on.
- The first contact with the Kenyan school has been made.
