

# Forssan seutu ja Forssan yhteislyseo

# Welcome to Forssa region

# Tervetuloa kouluumme! Welcome to our school!

Our school is the oldest Finnish countryside upper secondary school. Our school was originally established 1899 and the older part is called Jugend.

Later in 1958, it was expanded. The newer part is called Funkkis. There are around 500 students in our school.

- There are three floors and they all have their own color codes. The first floor is for natural sciences, its walls are painted red.
- The second floor is for humanities, like history and psychology. The walls are painted blue, so we call it the blue floor.
- The third floor is called the yellow floor. The yellow floor is for studying foreign languages, such as French, Italian, Spanish, Russian, German, English and Swedish.

In our school you can also specialize in art or sports. You can also complete diplomas in music, sports, and arts.

Music and art classes are located on the first floor of Jugend.

On the second floor of Jugend, we have Finnish classes and a library.

**We are looking forward  
to meeting you all!**
