<b>DESCRIPTION OF THE EXPERIENCE</b>	<p>To carry out this short film about road safety education we had the cooperation of all students interested in participating. The first thing we did was pick up the scripts that students in each classroom chosen from those submitted by their peers and selected one. Then organizing cinematographic techniques adapted to school and our circumstances were used. We organized different teams of students among those they took over some jobs and responsibilities. So we had a team to adapt the script, casting team, cameramen, clapperboards, makeup, wardrobe team, tools and theatre props, and hairdressers team and marketing and communication team. The team responsible for the soundtrack was exclusively made up of teachers. In order to organize everything we did different meetings with different teams to coordinate and check up tasks as well as common meeting before filming. The final editing was carried out by a teacher</p>
