### **READING COMPREHENSION. Read the text and circle the correct answer.**

#### **Judith's hobbies and interests**

In her free time, Judith doesn't like to stay at home. She prefers to go out with her friends or family. Most weekends, Judith and her friends go out drinking and dancing. Occasionally they eat out first, but they don't do this very often because they don't like the same restaurants. Judith's friends often argue about which restaurant to go to, but Judith doesn't mind where they go, as long as she is having fun.

Judith also likes going to the cinema, but her friends can't stand the kinds of films she likes, so they never go with her. She sometimes goes with her sister, who doesn't mind the kinds of films Judith likes.

#### **Peter's hobbies and interests**

Peter is quite sporty. He loves playing football, and he plays for a local team. He is very competitive, and he can't stand losing a game. Luckily, his team play very well, so they hardly ever lose. Peter also enjoys watching sport on TV, especially football.

Peter's other hobbies are fishing and gardening. He finds these relaxing, unlike football. Peter and his wife, Sarah, often do the gardening together. They often listen to the radio as they plant flowers and pull out the weeds. Peter would like Sarah to go fishing with him too, but she hates fishing, so she hardly ever goes with him.
