

MINT - A Report of the teachers - Short exchanges

My Name and a short introduction of myself *

Mari Rantalainen. Teacher of sports and health sciences in Finland. My work place is in the Iitti Upper Secondary and Secondary School.

The report of the methods used during the exchanges *

Most of the lessons have been conducted by the teacher (English, Math and P.E.) In the First Aid lesson students taught each other and evaluated each other. A lot of oral presentations in English classes.

Something else interesting *

The school days are very long compared to Finland. From 8.05 - 16.55 with one hour for lunch. Wednesday afternoon is free of school. There are no books in many subjects. Teachers "make" their own materials.

The best things I have seen *

In the relay lesson (P.E) I thought it was a fabulous idea to make the students think about the fastest combinations among themselves. They tried them all (5) with a time and could see the differences.
