<b>DESCRIPTION OF THE EXPERIENCE</b>	<p>Since 2006 we came up to introduce in the area of PE a theoretical game as a complementary part of the area, to discover the influence of sports in culture, and vice versa. But above all, to show that we are all able to learn together, students of the teacher and the teacher of students, set out to make a good cocktail a stylish recreational, sporting, cultural, current, and especially significant, and we believe that we have achieved this. We have achieved a mixture, copying the style of the famous radio program weekend "Carousel Deportivo", to stimulate the beginning of each session, and we have proposed a quiz game group, individual, for their homes and their families, a question of "Gold Golden Question", and a section "I have a question for you Mr teacher". Along with all these sections of questions, we have created a classification (type Football League) and "healthy" competition between classroom groups. The duration of the game is only a month and a half in November (rainy season). At the end of the game and according to the classification, held a final team class group, in the gym at the Center, and cool Radio, individual male and female finals. But all this means nothing without the involvement and motivation of students, at home and in class work and his interest in playing, and know what is happening in Spain and what happens outside your local. As a final reward, we made a trip to Madrid Saturday, to witness live, the "carousel of la Cadena Ser" and visit the Temple of Debot.</p>
