School day in Forssan
Yhteislyseo

School year; periods and courses

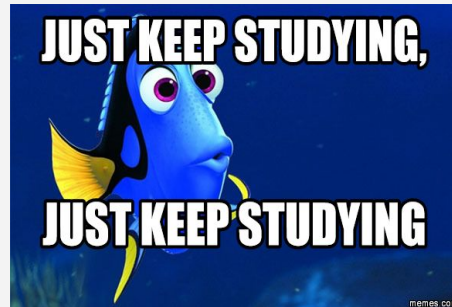

Our school year takes around 9 months with its holidays. These holidays contain Christmas and Easter. Also we have one week holiday in autumn, and one in winter.

We have five periods per school year and we get to choose the courses we want to study. Usually the teachers recommend us to balance our courses by taking 30 in the first year, 30 in the second year and 15 in the third year. That is the minimum 75 courses we must accomplish to graduate. Often most of the students take more courses than that.

You are able to graduate within 2 to 4 years.

Forssan Yhteislyseo is in collaboration with Forssas vocational institute and Ypäjä's horse academy.

Studying in lessons

With lesson options we are able to choose when and what we want to study.

For example if you have biology in a place where number 7 is, it means you have biology every monday, wednesday and friday morning until the new period starts with a new schedule. If you don't have a lesson in some numbers place, you have free-time to spend.

One lesson lasts 75 minutes and after every lesson we have a break that lasts 15 minutes.

Our lunch starts at 11 and takes 45 minutes.
