

# Careers advice in schools - Orientierung an den Schulen- A Report of the teachers - Short exchanges

## My Name and a short introduction of myself \*

My name is Csaba Varga, from Hungary. I am history teacher at Dabasi Táncsics Mihály Gimnázium since 2 years.

## The report of the methods used during the exchanges \*

They used almost the same methods, like we are using at our school. Usually the teachers were teaching traditional way, and during lessons they were asking questions from the students. Some of them used presentations on the computer as well, for example the history teacher showed them maps in the relevant ages.

## Something else interesting \*

For me the interesting thing was that the students could choose what they would like to write on their notebooks, it was not obligatory. Some of them just were sitting and listening the teacher, without any notes.

## The best things I have seen \*

The best things what I have seen was the economy lesson. It was not a usual lesson or subject, but more it tried to teach the students more useful things about life. For example about the taxes, the money, official form documents, etc.
