Studying foreign languages is important. They can be used in multiple occasions and can be very useful in life. It's also very fascinating to speak to another person in his native language. It opens your world view and makes social interaction much easier. Being bilingual also makes you look wise and sophisticated.

Foreign language studies have been made easy to access and learning methods are great. We use lots of technology and apps such as quizlet and kahoot. I have found those games to be the best way to learn for me. We have three mandatory languages which are Finnish, Swedish and English. In our high school you can take also French, German, Spanish and Russian.
