

Students - Careers advice in schools - Orientierung an den Schulen- A Report of the teachers - Short exchanges

My Name and a short introduction of myself *

Tiina Purho. 16 years old student from Iitti, Finland. I like sports and music. My favorite subjects in school are math, Swedish and music.

The report of the methods used during the exchanges *

Students worked on their own and sometimes with whole group. Teachers taught mostly in traditional way from the front of the class. They used computers, powerpoints and white boards. They showed videos and helped students with hard questions.

Something else interesting *

School's lunch is way more different than in Finland. The school system is also much different than what I'm used to. Students had to wear school uniform which we don't have in Finland.

The best things I have seen *

We went to see history lesson with my Finnish teacher and then the trip to Liverpool. Those were best things. And the view is amazing everywhere.
