

WELCOME TO TABLE PRODUCT!

“Product” is what the student creates at the end of the lesson to demonstrate the mastery of the content. Each student should be given the possibility to demonstrate their understanding by creating a product that allows them to perform at their best.

1) Watch this video

<http://vid.ly/8c1n7n>

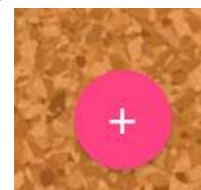

- 2) After watching the video, answer the question in the way you feel more comfortable with. You can record a video/audio of yourself talking, you can write your answer, you can use metaphors, you can create a collage with pictures and explain how they relate with the question, or even draw a picture of your answer... however you prefer!

Think of a recent mistake you made.

What happened? How could you learn from it?

- 3) Upload your reply (text of your reply, your video, your audio reply, photo of your collage, etc...) in this Padlet: <https://padlet.com/IFOM/tableproduct>
- Click on the pink + button in the bottom right of the screen
 - Choose what type of post you want to upload
 - Write your text and/or upload your media (video, photos..)

Finished!
