

Word Wizard

Your job is to look for at least 5 interesting words in your reading. If you find words that are puzzling or unfamiliar, mark them down on this page while you are reading. You should have at least five words in any case. Later, have a guess as to their meaning. After recording your guess, find the words in a dictionary and write down their definitions. When the circle meets, present your words to your group. Do not just write the word in Finnish.

Make sure you fill in all the parts – it does not matter if your own guess is wrong.
