Am besten hat mir die Methode: .... gefallen, weil ....?/I liked these methods best because...

I liked quizlet and poplet because I think it is interesting to learn but to enjoy in the same time with your class mates and teachers. Poplet is really interesting because we can learn how to make sentences but also new vocabular words.

## Digitale Methoden haben den Vorteil, dass.../Digital methods are advantageous because

Digital methods are very advantageous because it is less tiring to write on a computer than writing with a pen.

---

## Digitale Methoden haben den Nachteil, dass.../the disadvantages of digital methods are...

Sometimes it can be blocked or difficult to access and mostly I think that it is very important to write on a paper even if today we have all this technology we still have to know how to write on a paper.

---

## Wie würdest du eine dieser Methoden deinen Mitschülern beibringen? /How would you get other students to use these methods?

I think I will just talk to them about these different methods and maybe one day they will use these methods too.

---

## Könntest du dir vorstellen, zusammen mit Mitschülern digitale Materialien (z.B. ein Quizlet) zu erstellen? Welche?/Could you imagine producing digital materials with other students/

I could imagine producing digital materials with other students like a sort of game or something but in my high school it doesn't exist and it's very difficult to find a school that actually has materials and options to offer, and this kind of project is mostly for people who have already graduated from high school so only for students in college.

## Der finnische Schultag/The Finnish school day

Kanntest du Geogebra?/Were you familiar with Geogebra?

Ja/Yes

Nein/No

Nutzt du es auch ohne Arbeitsauftrag?/Would you use these methods if they were not given to you as an activity?

Ja/Yes

Nein/No

Wofür?/How?

---

Kennst du Flipped learning?/Are you familiar with flipped learning

Ja/Yes

Nein/No

Könntest du dir vorstellen, dass du mit dieser Methode besser/motivierter lernen könntest? Begründe kurz!/Could you imagine learning more easily/in a more motivated way using this method?

I think so because teachers are way closer to the students and they are really helping them in order to become better.

---

Findest du, dass Entrepreneurship -Unterricht dich besser auf die berufliche Zukunft vorbereiten würde? Warum?/Do you think that enterprise lessons would prepare you better for your future career? Why?

I don't think so because I'm not used to these kind of methods I always had usual methods for learning and I think that we have to do the work ourselves and not be so helped because when we become an adult and we get a job you can't count on someone else it's just your work and your strength that counts.

---

Könntest du dir vorstellen, die Abschlussprüfungen digital abzulegen?/Could you imagine taking your final exams digitally?

Ja/Yes

Nein/No

Welche Vor- und Nachteile siehst du? /Which advantages/disadvantages do you see?

I love writing on paper so I'd prefer this method but with a computer you can go faster so I don't really know actually.

Der finnische Unterricht/Lessons in Finland

Wie unterscheidet sich der finnische Unterricht vom Unterricht in deinem Land?/How are lessons different in Finland compared with in your country?

In Finland it's very different than in France because the schools are so small and there aren't many students. In the classrooms there isn't any noise it's so weird and they are all listening to the teacher which is pretty rare in France. The lessons are not the same either we don't use the same methods and Finnish people are more focused on what they understand than what they remember like in history for example.

---

Was würdest von dem gesehenen Unterricht an deiner Schule auch gerne haben?/What would you like to take from lessons you have seen here to your own school?

I'd like to have smaller classes and maybe more classes where you can speak to the teacher and in the same time you can learn like some kind of an exchange but more regularly than we already have.
