Am besten hat mir die Methode: .... gefallen, weil ....?/I liked these methods best because...

It makes the work faster and more beneficial. The two requirements are that the devices must be modern and fast, in order to avoid waiting for device respond, the second is that the students and especially teachers must be familiar with this kind of innovation.

## Digitale Methoden haben den Vorteil, dass.../Digital methods are advantageous because

As we can see, students are inseparable with modern technologies, they spend their free time on using them. It gives more fun when you're possible to use computer also during the work, which is obviously our school. We also take care of environment by not taking the notes (lower demand for paper).

---

## Digitale Methoden haben den Nachteil, dass.../the disadvantages of digital methods are...

The negative effects such like eyesight defects, backbone pain can occur due to holding one position of the head. The school also have to have the capabilities to take part on this kind of innovative learning. They must afford to buy the software, computers etc.

---

## Wie würdest du eine dieser Methoden deinen Mitschülern beibringen? /How would you get other students to use these methods?

I think that by cooperation and contesting. My colleagues like to play quizzes like Kahoot and Quizlet. I see also big potential in Distanzunterricht (distance learning) by Adobe Connect.

---

## Könntest du dir vorstellen, zusammen mit Mitschülern digitale Materialien (z.B. ein Quizlet) zu erstellen? Welche?/Could you imagine producing digital materials with other students/

I cannot imagine producing it, because I never tried to do it. But I'd like to try it out.

---

## Der finnische Schultag/The Finnish school day

Kanntest du Geogebra?/Were you familiar with Geogebra?

Ja/Yes

Nein/No

Nutzt du es auch ohne Arbeitsauftrag?/Would you use these methods if they were not given to you as an activity?

Ja/Yes

Nein/No

Wofür?/How?

To make some exercises on math, drawing the charts.

---

Kennst du Flipped learning?/Are you familiar with flipped learning

Ja/Yes

Nein/No

Könntest du dir vorstellen, dass du mit dieser Methode besser/motivierter lernen könntest? Begründe kurz!/Could you imagine learning more easily/in a more motivated way using this method?

Yes, especially on history, because I have a few history intervals which I really enjoy.

---

Findest du, dass Entrepreneurship -Unterricht dich besser auf die berufliche Zukunft vorbereiten würde? Warum?/Do you think that enterprise lessons would prepare you better for your future career? Why?

Yes, I think that yes. Students will be more into usage of digital services during the work, not only the fun.

---

Könntest du dir vorstellen, die Abschluss prüfungen digital abzulegen?/Could you imagine taking your final exams digitally?

Ja/Yes

Nein/No

Welche Vor- und Nachteile siehst du? /Which advantages/disadvantages do you see?

While using some programs, they have to know the layout of the whole application, like know where the tool for drawing line is. I've faced with it during GeoGebra classes.

---

## Der finnische Unterricht/Lessons in Finland

Wie unterscheidet sich der finnische Unterricht vom Unterricht in deinem Land?/How are lessons different in Finland compared with in your country?

I've got the Math, Physics and language lessons. The lessons wasn't so different than in Poland, the teacher was speaking and asking. But I enjoyed this classes, he took care of every person in the class.

---

Was würdest von dem gesehenen Unterricht an deiner Schule auch gerne haben?/What would you like to take from lessons you have seen here to your own school?

The distance lessons, that's be great to use it during the language classes. The quizzes makes also the normal day a little bit more exciting than before.
