Am besten hat mir die Methode: gefallen, weil?/I liked these methods best because...

I found quizlet live, kahoot and QR the best because they can motivate students and develop their cooperation.

Digitale Methoden haben den Vorteil, dass.../Digital methods are advantageous because

In my opinion our students are really interested in technology. Using smart phones and computers belongs to their everyday life that is why they can be motivated very well with the help of such digital methods.

Digitale Methoden haben den Nachteil, dass.../the disadvantages of digital methods are...

It requires a lot of preparation from the teacher and sometimes there can be problems with the wi-fi connection.

Wie würdest du eine dieser Methoden deinen Mitschülern beibringen? /How would you get other students to use these methods?

Könntest du dir vorstellen, zusammen mit Mitschülern digitale Materialien (z.B. ein Quizlet) zu erstellen? Welche?/Could you imagine producing digital materials with other students/

Der finnische Schultag/The Finnish school day

Kanntest du Geogebra?/Were you familiar with Geogebra?

Ja/Yes

Nein/No

Nutzt du es auch ohne Arbeitsauftrag?/Would you use these methods if they were not given to you as an activity?

Ja/Yes

Nein/No

Wofür?/How?

Well, if I were a Maths teacher, I would definitely use Geogebra.

Kennst du Flipped learning?/Are you familiar with flipped learning

Ja/Yes

Nein/No

Könntest du dir vorstellen, dass du mit dieser Methode besser/motivierter lernen könntest? Begründe kurz!/Could you imagine learning more easily/in a more motivated way using this method?

Yes, I could. What I really liked about this method is that it focuses on self-paced learning. In my opinion it's important to consider the differences between our students.

Findest du, dass Entrepreneurship -Unterricht dich besser auf die berufliche Zukunft vorbereiten würde? Warum?/Do you think that enterprise lessons would prepare you better for your future career? Why?

Yes, of course. Because students can acquire practical skills for their future career.

Könntest du dir vorstellen, die Abschlussprüfungen digital abzulegen?/Could you imagine taking your final exams digitally?

Ja/Yes

Nein/No

Welche Vor- und Nachteile siehst du? /Which advantages/disadvantages do you see?

On the one hand, taking your final exams digitally is very up-to-date as a method of examination, but on the the other hand I think it is much more stressful for students because they are accustomed to using paper and pen when it comes to exams.

Der finnische Unterricht/Lessons in Finland

Wie unterscheidet sich der finnische Unterricht vom Unterricht in deinem Land?/How are lessons different in Finland compared with in your country?

Well, as for language lessons, lessons in Finland are similar to lessons in Hungary. We manage our language lessons in the same way. In Finnish lesson we saw the teacher using drama methods and improvisations, but in Hungary we rarely use these methods in Hungarian lessons.

Was würdest von dem gesehenen Unterricht an deiner Schule auch gerne haben?/What would you like to take from lessons you have seen here to your own school?

What I liked most about the lessons are that teachers often make their students work in groups and pairs and they practise pronunciation a lot. I also loved the encouraging and relaxed atmosphere in the lessons.
