**2. What was your first impression about the work place? How were you welcomed? How was the atmosphere/work climate during your work experience? How did they introduce you the work place/premises? Were the workers busy? Was the atmosphere busy? \***

Bath Company was little bit lame and boring but watching how they make paint and but lights on it was actually interesting. When we came in, there was two guides and they gave us boots and jacket because of safetiness. The climate was normal inside something like 20-25 celsius. They introduce company for us like guides. We followed them and they told us about the company. All workers were making something so they were busy. In Vitafort was really interesting. They showed us the chemistry place where they test chemicals. When we came there they told us to go to the boss room and we were sitting there and introduce ourselves. Boss told us about the company and history of it little bit and then we folowed two guys and they showed us powerpoint of the company and some business stuff. Climate was normal just like in other company and workerswere busy too.
