My name is Valerie, I'm 46 years old. I'm a professeur documentaliste teacher in Brittany.

The report of the methods used during the exchanges *

Lot of works in groups without writing anything or just a little bit. A lot of communication between students and the teacher. They had to choose another classmate to give and tell another idea about the topic. No frontal classes (no magistral classes). Good dynamic with a lot of activities.

Something else interesting *

Teachers was always cheering the students up. When the students gave one wrong answer the teacher was always positive about it.

The best things I have seen *

The really good implication of every students. They're not afraid of participate and talk about different topics, in a foreign language. The reactivity of the students.
