

Students - Careers advice in schools - Orientierung an den Schulen- A Report of the teachers - Short exchanges

My Name and a short introduction of myself *

My Name is Baptiste Orieux. I'm 15, I live in Broons and I Go to the school at Lamballe.

The report of the methods used during the exchanges *

Teachers asked many questions to the Students when they explained.

Something else interesting *

In Economy & Politik, two Students had to make a presentation. So they explained their researches to the other Students. It's easier for the Students to understand by this way than if the teacher explains.

The best things I have seen *

In Informatik, it was interessant because they thought to the time algorithms Needed to work. Whereas in France we just create algorithms.
