

## VARJOVAALIT 2019 / SHADOW ELECTION 2019

In the 2nd of April 2019 7.-9. grade pupils from primary school and 1.-3. grade students from high school practised their voting skills in “Shadow election”. Our history teachers Mika Vuori and Mikko Paappanen have organised this kind of practice every year when the actual Parliament election takes place.

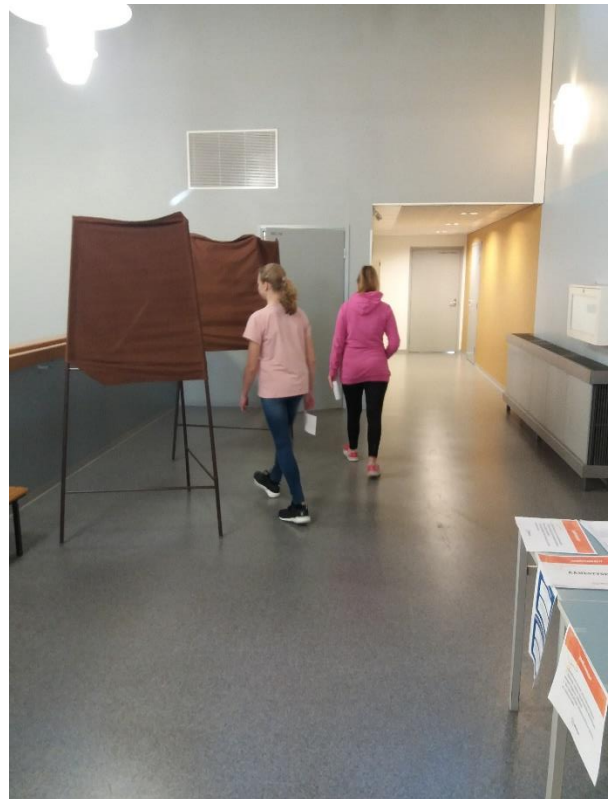

All the candidates are in a namelist outside the voting area.

Before this day, students have been collecting information of all political parties and their candidates.

First the authorities check your identity and you receive your voting card.

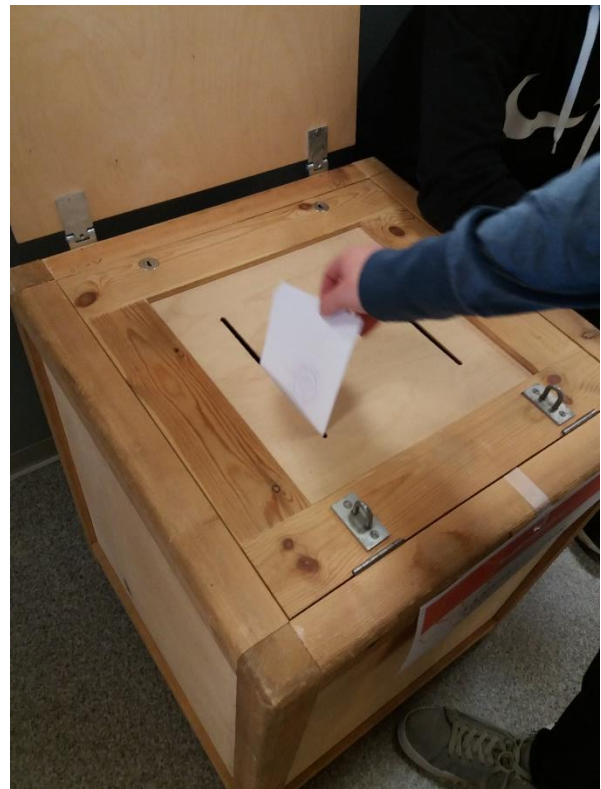

Next you go to the actual voting tent, which is covered and you can make your choice in peace.

Finally your voting card is stamped and you can drop it to the big box.

Finally all the votes were calculated.
