

Guardians of Puistokatu Daycare School to become DigiOne users on 10 Aug 2026

Remote information session for
guardians on 27 May 2026

The session will be recorded with
subtitles.

A link to the recording will be sent via a
Wilma message.

Note: The view
only shows
fictional people

What is DigiOne?

- A shared online tool for the school that brings together the information and services used by learners, teachers, principals, guardians, and administration in relation to schooling.
- As DigiOne is introduced, Wilma will no longer be part of use, but the other familiar services used by the school will remain; for example, the school's website will stay on Peda.net.
- In addition to Jyväskylä, Lahti, Oulu, Turku, and Vantaa are involved. The goal is to expand its use.

Schedule

- Communication between home and school will move to DigiOne on 10 Aug 2026, after which guardians will no longer be able to log in to Wilma.
- Instructions for logging in to and using DigiOne can be found on the Puistokadun päiväkotikoulu Peda.net pages. A link will be sent to homes via a Wilma message. You can also ask your own teacher for the instructions.
- A DigiOne support point for guardians to help with logging in will be available at the school in August
Tue 11 Aug - Thu 13 Aug 2026, from 08:00-10:00 and 13:00-16:00.
- More guidance on everyday use of DigiOne will be provided at your class's parent evening at the beginning of the autumn term.

Other things to note

- If you have children in another school, Wilma will still remain in use for them. The schedule for introducing DigiOne in other schools will be announced later.
- If you want to save items for yourself, such as Wilma messages you have sent, you must do so before 10 Aug 2026.
- The system will be introduced only for school guardians. On the daycare side, the systems will remain unchanged.
- DigiOne will be introduced for pupils later, and separate information will be provided about that.

Puistokatu daycare school as a pilot school

- The purpose of the pilot is to test the service and gather feedback on the system's features and use from the guardians' perspective.
- During the pilot, feedback will be collected from guardians and teaching staff on any errors found or features that need further development during autumn 2026.
- Feedback from guardians is important for developing DigiOne and expanding its use to other schools in Jyväskylä.

DigiOne guardian view

- In a web browser
 - On a computer or mobile device/smartphone at <http://app.digione.fi/>
 - The messaging service opens in its own tab
- A separate mobile app is coming in autumn 2026 (iOS / Android).
 - Information and instructions will be provided when the mobile app is available
- Logging in
 - Guardians use Suomi.fi login (see separate instructions)
 - If you cannot use Suomi.fi identification, please contact the school secretary

Thank you!
