1. I asked my friends for recommendations for a good job/workplace on/via social media.
2. On matters such as this, I often ask for help from my friends to see whether/if they have had similar experiences.
3. I'd like to work shorter days than now/at present, and I'd also like to work from home occasionally / from time to time.
4. In my current job, I have no choice but to go to the office every day, and, on average, my work days last over nine hours, which is more than I'd like.
5. But if I changed jobs now, I wouldn't be entitled to leave next summer.
