

3H

1. The child (that/who) I was babysitting/looking after was swinging back and forth on a swing.
2. He/she shouted/screamed at me when I told him/her it was time to go home.
3. He/She used to be so shy, but now he's/she's four he/she has become more confident.
4. His/her brother hates swings. It is amazing how different one child is from another.
5. One day I would like to do a study on child behaviour.
