CONCLUSIONS

about plogging

- We found that a lot of household waste can be found under bridges, near water tanks and railways.
- There are quite a few disposable coffee mugs near the railway.
- It is a great opportunity to spend time with classmates.
- The cleaner the environment, the fewer people who will be able to drop something on the ground.
- Adrenaline and endorphins are produced during running.
- It's fun, you run around and pick up trash, you smile, you're full of energy and activity.
