

# GOOD EXAMPLES OF ENVIRONMENTAL PRACTICES IN OUR REGION

---

# Recycling

- You can recycle at various recycling points.
- People recycle at their homes and then take the rubbish to the different recycling points.

# The recycling point at Ahlmannintie

Depending on what you want to recycle, the entrance fee is different.

Recycling some items costs more than others. Recycling of some items are free of charge.

It's well known for its service and friendly and helpful staff.

# Electrical transportation

- The number of electrical cars and electrical kick boards is slowly increasing.
- Charging stations for cars can be found at many supermarket parking spaces.
- Cost of charging is approximately 3€/100km.
- Electrical kick boards can be hired by using an app.
- A short trip is only a couple of euros.

# The river Kymijoki as an energy source

- We use the river as an energy source.
- We have hydro electric power plants.
