GEAR

A toolkit for inclusive environmental education!

**Global
Environmental
Awareness &
Responsibility**

GOIZEKO IZARRA IKASTOLA

Belgium . Finland . Greece . Italy . Spain . Turkey

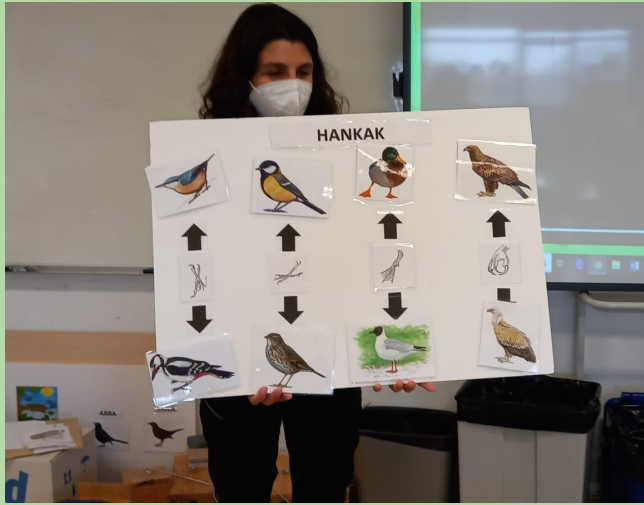

As we thought when we started with our garden project it has provided us with lots of hands-on learning opportunities which we hope will help to increase environmental awareness.

In a previous activity 3rd and 4th grade students made bird feeders for the garden and we thought that it could be a nice opportunity to learn about biodiversity in a practical way so we invited two **scientists from the Aranzadi Society of Sciences** to come to our Ikastola because our students wanted to know more about the birds in our garden.

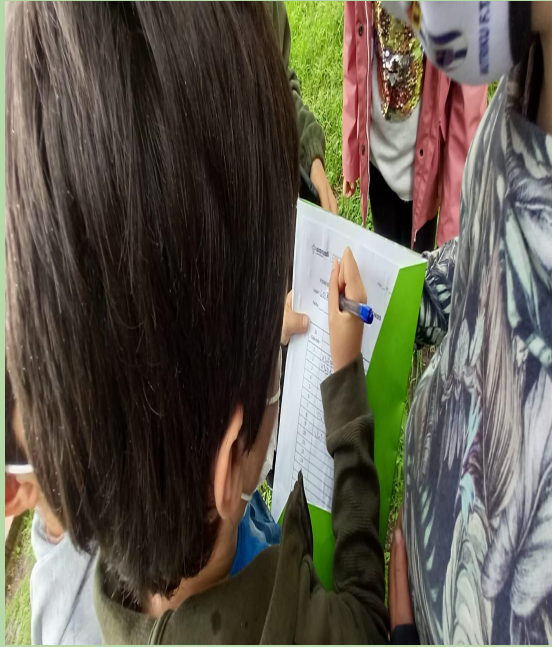

The Aranzadi Society of Sciences is a nonprofit scientific association, whose main goal is the scientific research on the natural and human environment and to spread the results obtained

ARANZADI zientzia elkartea
sociedad de ciencias . society of sciences . société de sciences

At the end they put some nests in the trees in the garden. We will see if the birds will nest !!!
