*They feel that the experience was positive, but also hard work at the same time

What did you find positive or enjoyed the most about the week in Valtimo?

- Spare time activities.
- Visit each other's houses and hanging together in the evenings.
- Warm school lunches
- Getting a chance to cook and make Karelian pasties
- Tasting Finish food that they normally wouldn't have tried.

What did you find negative or felt uncomfortable with?

- One student felt that he wasn't included in the family because of language barriers and lack of will to speak English.
- Big distances between the host families.

How do you feel in general at the end of this project?

It was a very cozy and fun project to be a part of. The students will miss the Finish students and their families.

They will defiantly take part in this type of project again if they get the chance.

Thank you for your cooperation,
