

WELCOME TO TABLE CONTENT!

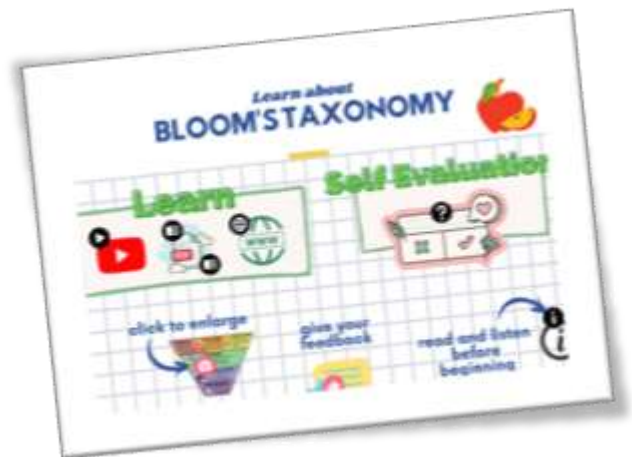

"Differentiating Content" refers to the fact that teachers may have in their classes students with different levels of knowledge about the lesson topics. Some students are completely unfamiliar with the concepts, some students may already have some knowledge. To handle these situations, we can **differentiate the content** by designing activities for groups of students by using as guide the Bloom's Taxonomy.

To learn how to do it:

- 1) Go to this "Thinglink" sharing platform with this QR code or this link

[Link: shorturl.at/gAFOR](https://shorturl.at/gAFOR)

- 2) Click on the button info to get more details about the activity.
