Our Mission and Vision

Together we are more.

Internationality belongs to everyone, and it belongs to everyday life.

The common goal of youth work and school education is to raise people with the ability and passion to function in international interactions on a global scale.

Erasmus+ accreditation for the programme period 2021–2027 enables us long-term and strategic international cooperation.

Key Strategies: Erasmus+ plan

ORIV  SI

Key Strategies: Erasmus+ plan

- The main objectives of the Erasmus plan are to develop the schools' staff members' and learners' international readiness.
- Through developing teaching and creating quality international pathways for all learners, learners learn not only skills for later professional life but also how to be a responsible global citizen and how to appreciate language and cultural diversity.
- Staff members develop their international networks and their professional skills. The participating learners are aged 7-18.

ORIV  SI

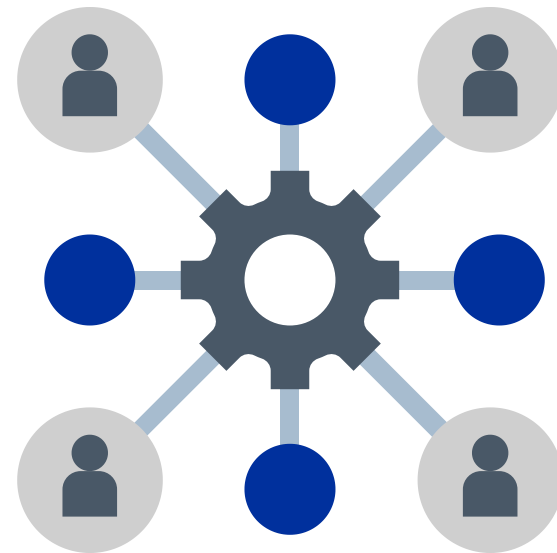

Erasmus+ plan of the city of Orivesi

Ten strategic objectives

OBJECTIVE 1.

To develop the coordination of international activities at the city level

OBJECTIVE 2.

All international activities follow the school curriculum

OBJECTIVE 3.

Development of the international capacity and professional skills of all staff members

The background of the slide features a faint, light-colored world map. In the foreground, there are several raised fists of various skin tones, symbolizing solidarity and activism. The fists are positioned at the bottom of the frame, with one fist in the center being more prominent and reaching higher than the others.

OBJECTIVE 4.

Development of education, with themes such as equality, equity and human rights

OBJECTIVE 5.

Development of intercultural skills

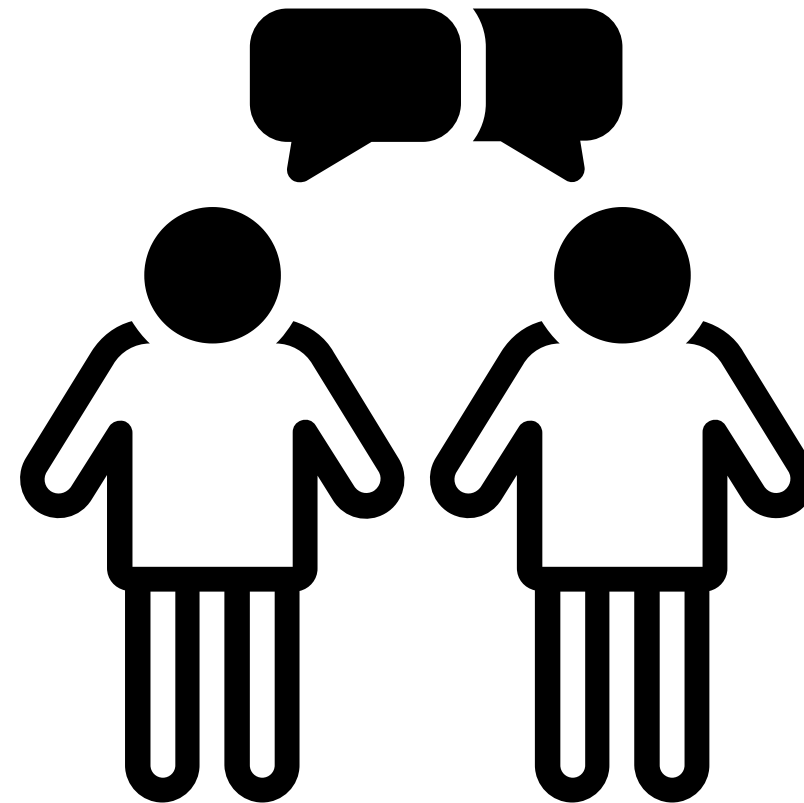

OBJECTIVE 6.

Ensuring a high-quality international path for every child and youngster

OBJECTIVE 7.

Working life skills: ICT skills, emotional skills,
interaction skills

OBJECTIVE 8.

Responsible global citizenship

OBJECTIVE 9.

Linguistic and cultural diversity and appreciation of cultural heritage

OBJECTIVE 10.

Development of network cooperation

SUMMARY

Important Things to Remember

Summary

Together we are more!

Youth work and school education have a common goal:

To raise people with the ability and passion to function in international interactions on a global scale.

Sense of community and well-being:

Always offer young people possibilities to take an active role in the society and international project work.

The new Erasmus+ programme emphasises inclusion, a greener approach and digitalisation.
