Project

- 1) to build Kenyan network in which Finnish Peda.net learning platform, developed and owned by University of Jyväskylä, is a part of teaching and learning

Project

- 2) to develop a concept for own e-study material production and use in Kenya,
- 3) to produce e-materials for schools, and publish it in Peda.net learning platform,
- 4) disseminate the e-learning concept to number of other schools.
