What things should be developed or changed for the next year of the project? (14 vastausta)

nothing

nothing

Timing

More days together:))

i think we have to spend more time with that full group not only with family

There should be more "free time" between stuff in timetables, so we don't have to hurry all the time

Not just reading the information, more to do.

We made a slideshow but we didn't introduce it to others. We should do that.

Less tasks

No zmar
