

Work experience (On-the-job learning)

During our studies, we take part in work experience 3-6 times. This gives us a chance to experience work and methods in other places.

Our work placement criteria is very flexible, and can usually be anything anywhere. Some examples are zoos, pet shops, animal lab centres, husky sledding safaris, dairy farms, ranches, the animal police service or even an animal breeder. Our work placement can situate abroad too, with POKE college helping financially to some extent.

At the end of each work experience placement, we are assessed on our work. Work experience is great for broadening knowledge and really getting a feel about the rest of the world. It is generally where the most knowledge is gained and holds the most beneficial value for future employment.
