

CASIO CAS

The screenshot shows the Casio CAS calculator interface. On the left is a keypad with various mathematical functions. The main display area shows the system of equations $\begin{cases} -2x+5y=1 \\ 6x+2y=14 \end{cases} |_{x,y}$ circled in red. Below it, the solution $\{x=2, y=1\}$ is displayed. To the right, another expression $\{a=\frac{3}{2 \cdot x}-2\}$ is shown. At the bottom right, the fraction $\frac{53}{9}$ is visible.
