

DIGITAL PORTFOLIOS

Turku uses so-called digital portfolios for all children in kindergartens and preschools. This is a digital platform, called Pedanet, where we collect documentation about the child.

Our pages on Pedanet have two parts. There are publicly accessible pages with information about our activities, and there are pages that require a login, where we collect pictures and other information about your child.

As a parent, you must:

1. Create an identity for your child on Pedanet. Communicate the username you have created to your group.
2. Fill in and return the photo permission form.

Once this has been received, we can link your child to the department to which he belongs.

2. CREATE USERNAME ON PEDA.NET

NOTE! Use other browsers than Internet Explorer when using peda.net for security and usage reasons.

1. Browse to <https://peda.net>
2. Chose "Register New account" in top right corner.
3. Chose "I am less than 13 years old..." (you are making an id for the child)
4. Fill in the child's name and yours, and your own email. Click "Register"
5. After registration you will receive a one-time id in your mail. The account must be confirmed within a week. (If you can't find the email look in the spam-box.)
6. Click on the link. Use the ID and password provided in the mail.
7. Read and accept the terms.
8. Create an id for your child. It doesn't have to be surname/last name, but be aware that is public information and seen for all. Also choose password. It is also recommended, but not mandatory, to fill in the child's name. Put your own email as address.
9. Chose "Activate account".
10. Confirm the email address sent to your email by clicking on the link in the email and then "Verify email address".
11. Write down for your own benefit the child's id that you will remember it. Note that there is difference between capital letters and lowercase.
12. Notify the staff of the child's group about the ID.

3. FIND THE WAY TO THE CHILD'S DAYCARE/PRESCHOOL

Once you have created an account on the site, you will need to do the following steps to find the department page:

From a computer:

1. Go to peda.net and log in
2. Type <https://peda.net/turku/barnen> in the URL-box.
3. Click on the unit you want to go to and then on the group.
4. Click on the star, , on the right side of the screen.
5. Select "Show in my links". This will automatically create a shortcut to this page on your login page.

If you wish, you can also choose to subscribe to the page, and you will receive a notification if someone writes something on the page. The notification will be shown un-

der the bell, , in the top right corner.

6. Click on save.

From a smaller screen: Do steps 1-2 above, then you will have to click on the three bars, , in the upper left corner of the screen to bring up the menu and there click on first unit and the child's group.

HOW DO I ADD MATERIAL TO MY CHILD'S PAGE?

1. Browse to your child's portfolio folder and consider under what heading the post could fit
2. Open appropriate the folders click on "Create" at the top of the page and select "text" in the box "Create here".
3. Write a heading for the post, e.g. "10.9.17 Johanna cuts with scissors at home"
In the content you can freely write text about what happened, pictures/videos you can enter by pressing "Add new attachment" and then browse for the file.
You can upload images separately by selecting "picture" in the "Create here" box and. Video by pressing "other tool" and then "file".
Note that the large video may take a long time to upload and may not be uploadable. On most phones, you can lower the quality of the video or you can film shorter films which facilitates the use of peda.net.
4. Finally, select "Save" at the bottom of the page.

NEW USER ID AT PEDANET

THIS PAGE IS TO BE RETURNED TO THE CHILD'S GROUP

Remember to write down the user id even for your own use!

My child:

.....

Has the new Pedanet identity:

.....
